

Population Ecology Terms

"K" selection
"r" selection
Age Structure
Carrying capacity
Clumped distribution
Density Dependant factors
Density Independent factors
Emigration
Environmental resistance
Exponential growth
fecundity
Fertility
Immigration
Life table
Logistic Growth
Mortality
Natality
Population
Population density
population distribution
Population growth rate
Population size
Random distribution
Resource Patchiness
Sex ratio
Survivorship curves
Uniform distribution

Organization In the Biosphere Terms

Abiotic
Biome
Biosphere
Biotic
Community
Ecosystem
Gradient
Habitat
Microhabitat
