

Mr. Ulrich
Biology

Protein Madness

The Protein Team:

mRNA:

Duty:

ribosome:

Duty

tRNA:

Duty:

Ribosome Section

Sentences:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.

Questions on the back

1. In this activity, who was doing the job of transcription? Briefly describe their job.
2. Who did the job of translation?
3. Do any of your sentences not make sense? What could have happened to cause the error?
4. What is this called when it happens in genes?
5. Other than the obvious that people are not RNA, how did this activity misrepresent protein synthesis? (What are some holes in our model)
