

### Which List is the Right One?

Directions: For each “characteristic”, identify a “Life Process” that is part of that characteristic. Briefly explain why it matches.

Glencoe Science’s “Biology”

Prentice Hall’s “Biology”

Characteristics of Living Organisms

Life Processes

Made of one or more cells	
Displays organization	
Grows and develops	
Reproduces	

Responds to stimuli	
Requires energy	
Maintains homeostasis	
Adaptations evolve over time
